**3 - What two or three suggestions would you make to improve this course in the future?**

**Response Rate** 6/24 (25%)

- Oftentimes I found myself looking on google for help for the pre-class quizzes. I feel that this could be fixed if one or two practice questions were done during the before-class lectures, instead of making the notes conceptual only. Just adding the work for an example problem would have helped immensely.
- great professor, love his teaching style, some questions on the exams maybe a little bit difficult, but overall are great!
- I hope the professor can keep on doing like this, and continue providing high-quality instructions for us.
- None, it was great.
