4 - Did any particular aspects of this course enhance your learning?	
Response Rate	5/14 (35.71%)
<ul style="list-style-type: none"> I greatly appreciated having typed-up notes that I could print out before class. This instructor's office hours are the most useful office hours that I have ever been to throughout my time at SMU. The homework was very doable and increased my confidence in course material. One of the best professors teaching the most interesting class. Printed lecture notes and solutions to previous homework. Dr. Reynolds was always extremely helpful and available outside of class, and he truly wanted students to learn. I enjoyed the fact that all of the lecture material was readily available online and typed so it was easy to read. This the first time I had a class with Dr. Reynolds where the notes were typed instead of handwritten and it made a big difference for me. 	

5 - Did any particular aspects of this course detract from your learning?

<ul style="list-style-type: none"> It wasn't ideal how the instructor was gone for a week for a convention. The instructor was very busy with research and other responsibilities so he wasn't the most available he could have been for his students. The textbook wasn't super helpful. The tests were too difficult seeing as the lowest raw score on the second test was an 11 and the average raw score was a 50. None N/A
